

Angel Heart International, Inc. 2016 Q2 Report

The Angel Heart International (AHI) team has made several steps toward our goal to make AHI's volunteers and supporters even more connected, engaged, and informed as a community.

Alongside AHI's commitment to serving children who suffer from congenital heart disease (CHD) and have little or no access to medical care, we have also been dedicated to improving the treatment and diagnosis of CHD. We aim to further the education and training available to AHI's collaborating surgeons at the Gansu Provincial People's Hospital.

For several years, AHI has sent delegates to the American Association for Thoracic Surgery (AATS) Annual Meeting with the support of AATS. At this conference, our collaborating medical professionals have joined renowned experts and cardiothoracic professionals in learning about emerging technologies and advancements in the field. This year in May, AHI had the pleasure of continuing its attendance at the AATS Annual Meeting, allowing our delegates to enhance their knowledge of new techniques and long term treatment outcomes.

AHI's Gansu Caring Group Trip participants have also been selected for the upcoming trip at the end of July. Throughout the trip, our volunteers will keep a journal of their work and experiences as they provide support for our patients. Updates will be posted onto our Facebook page with details and images.

In support of our mission to provide care for underprivileged children suffering from CHD, the Capital Group Companies Charitable Foundation has awarded AHI a grant amount of \$30,000. We are tremendously thankful for the continuing support we have received from the Capital Group Companies, which has helped us to improve our patient care programs each year.

For more information and updates, please visit our [website](#) and [Facebook page](#). In June, we started a new monthly feature on Facebook to introduce you to each of our board members. Please feel free to drop by and meet our directors!

Thank you for your support.

With love,
